Code Review

Code Link
-https://github.com/Shrijeetkharche/IIC-Training-Forcepoint/blob/master/Task_1.py

Code Review Points:
1. ContactDetailsList should be created in contact class
2. Contacts list should be inside user class
3. ReadContact Function in user class should call a function in contact class for reading contact details.
4. Update contact should call a function in contact class(kiss)
5. Update and read contact details function in user class should call function of contactDetails.(kiss)
6. No need of creating function names createContactDetails inside class contactDetaisl (yaagni)
7. No function to read all contacts from user class
